

TechTrek

Press Release

London, 1st October 2009 – TechTrek Limited, a global provider of data management solutions, has today announced that it has acquired the whole of the Anacomp SAS and Anacomp IMS business in France.

With 40 years of experience and a passionate commitment to client services, Anacomp SAS/IMS is a leading player in France in data and document management. The company has joined with TechTrek to facilitate a powerful sales proposition and a world class delivery capability that includes TechTrek's BackOffice processing services in India.

Quotes

"The marriage of Anacomp SAS's data capture and conversion business and TechTrek's data management business will provide both sets of clients with a broad set of data management services and solutions, delivered with the expected quality and security. We are moving towards our strategy to become the data management business partner of choice. Adding the knowhow and experience of the Anacomp team in France will give us the ability to deliver our clients optimised benefits from the use of their data" said Tony Gale TechTrek's Chairman. "We look forward to the opportunity of working with Anacomp in France"

Parfait Sanchez, Anacomp SAS's Manager added "The TechTrek management and delivery model will bring a dynamic approach to our business. Their focus on quality and security together with our knowhow and innovation will ensure our clients get a world class service from their data management solutions. We are very excited about this merger and look forward to work with TechTrek."

About TechTrek Limited
